

COMMUNITY OUTREACH BURUNDI (COB)

Theme: 16 DAYS OF ACTIVISM AGAINST GBV

Drug-prevention Outreach, School greening

Province of Bubanza and Cibitoke

We believe in making socio-economic changes

Summit Univesity - Bujumbura

His name is Ntwari Guy Florice, 23 years old, recovered from addition of Cocaine and heroin. The Mother is Rejoicing to see now his first born happy and celebrating his diploma research paper. "The impact of Drug abuse on youth education in South quarter of Bujumbura"

The psychological effort of COB is remarkable in the life changing from addition to drug free life style. "We are grateful towards psychological services offered by COB as one of its Volunteers Group since 2020", says Florice's Mother.

Community Awareness on GBV _ Partnering with the National Police/ Anti-drug

Awareness campaigns on GBV related to drug use within Burundian Communities.

The activities were held successfully and it was requested to community members attended to be involved in GBV and Drug-prevention.

In rural areas, our 16 days of activism activities, contributed in raising Awareness of integrative Schools committees (parents –students – teachers) towards GBV, their impact on educational program and their relationship with drug abuse. Eight schools did attend the training.

COB's Country Director (Elias) Protecting Mango Tree

After the training session on GBV prevention, we did take time to encourage children in school greening with fruits trees management. We have focused on why such commitment is relevant apart the schools program. Why it is necessary to preserve the look and school grounds and the role that each one of all stakeholders should take into this process.
